

Joline Janse van Rensburg

Software Engineer & Full-Stack Web Developer

jvrenjoline357@gmail.com • +27 63 479 7919 • github.com/JolineJvR • jolinejvr.github.io/Developer-Portfolio

TECHNICAL SKILLS

- Software**
 - Python
 - Flask
 - SQL
 - SQLite
- Frontend**
 - JavaScript
 - HTML5
 - CSS3
 - React.js
- Styling**
 - Bootstrap
 - React Bootstrap
- Database**
 - MongoDB
 - SQLite
 - SQL
- Tools**
 - Git
 - GitHub
 - REST APIs
 - VS Code

SOFT SKILLS

- Problem Solving
- Self-Directed Learning
- Attention to Detail
- Creative Thinking
- Deadline Driven
- Client Communication

LANGUAGES

- English (Fluent)
- Afrikaans (Native)

LOCATION

- Johannesburg, ZA
- Available remotely

PROFILE

Passionate full-stack developer with a strong foundation in both software engineering and web development. I build complete, production-ready applications from Python backends to polished React frontends. Self-driven, detail-oriented, and always looking for elegant solutions to real-world problems. Currently freelancing and open to full-time opportunities.

EXPERIENCE

Full-Stack Developer (Student Projects) 2024 — 2026

HyperionDev Bootcamp | Remote

- Built and deployed SpectraFlow, a live media discovery platform integrating TMDB and Last.fm APIs via a secure Flask backend with environment-based key management.
- Developed Impulse-Buy, a full e-commerce application featuring product browsing, cart management, and a complete checkout flow.
- Created Bible Memory, an interactive scripture quiz app with progress tracking and category filtering.
- Built Chop-Shop, a recipe generator and smart shopping list app matching available ingredients to recipes.

PROJECTS

SpectraFlow Flask · Python · TMDB API · Last.fm API · JS · CSS

Live media discovery platform. Browse trending movies, TV shows, and music powered by real-world APIs. Deployed on Render with secure .env key management.

spectraflow.onrender.com

Chop-Shop HTML · CSS · JavaScript

Recipe generator that matches dishes to ingredients you already have, plus a smart shopping list for missing items.

jolinejvr.github.io/Developer-Portfolio/chop-shop.html

Impulse-Buy HTML · CSS · JavaScript

Full e-commerce store with product grid, detail pages, cart, checkout flow, and order confirmation. 3D model integration ready.

jolinejvr.github.io/Developer-Portfolio/impulse-buy.html

Bible Memory HTML · CSS · JavaScript

Scripture memorisation app with multiple choice quizzes, category filtering, streak tracking, and a built-in verse library.

jolinejvr.github.io/Developer-Portfolio/bible-memory.html

EDUCATION

Software Engineering Certificate 2024

HyperionDev · Certified

Full-Stack Web Development 2025 — 2026

HyperionDev · Certificate Pending
